PropFuel

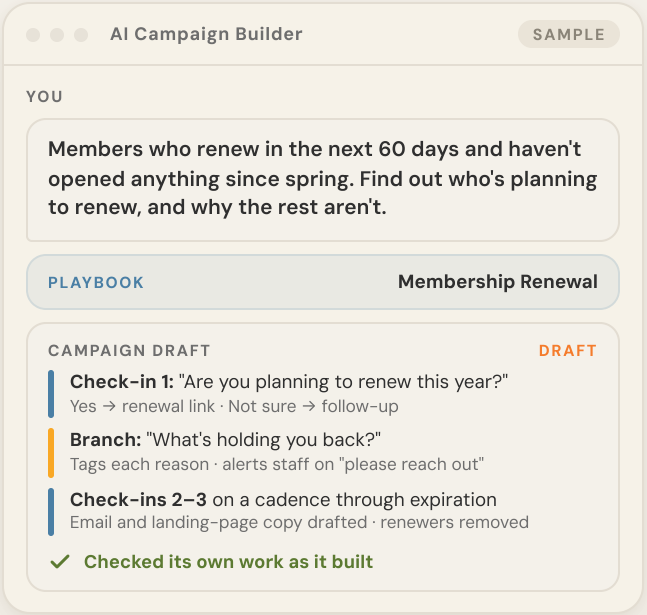

MEMBERSHIP AI

THE AI CAMPAIGN BUILDER

Describe it. Membership AI builds it.

Setting up a campaign is the work, and it's where small teams stall. Tell the AI Campaign Builder what's going on in plain language and it assembles the **whole campaign as an editable draft**: the content, the sequencing and the logic, built on PropFuel's proven campaign playbooks.

Hours of setup become a described intent and an editable draft. You review it, edit anything, and launch.

HOW IT WORKS

01 — Describe it
The situation or goal, in plain language. Or start from a Membership AI recommendation.

02 — It picks the playbook
Renewal, win-back, onboarding, events, acquisition and more, each built on what works.

03 — It builds the whole campaign
Cadence, copy, check-in questions, answer branches, tags and staff alerts, in one pass.

04 — It checks its own work
It applies PropFuel's validation rules while it builds.

05 — You review and edit
It arrives as a draft. Change anything. Nothing sends yet.

06 — You launch
Responses flow back into Membership AI, so you know your members better next time.

What it builds

TWO CHANNELS, ONE WAY TO BUILD

Email campaigns

A complete, ready-to-edit campaign, not just the copy.

Cadence · Email copy · Landing-page copy · Check-in questions · Answer branches · Tags · Staff alerts · Contact removals

Website Engagement

On-site campaigns built by description instead of assembled by hand, starting with simple ones like **wayfinding**: ask visitors what brought them, then point each one to the right page.

What changes for your team

MEMBERSHIP DIRECTOR

Start from a finished draft, not a blank page.

Launch more campaigns, faster. Proven playbooks mean you don't need to be a campaign expert, and you stay the decision-maker.

MARKETING & COMMUNICATIONS

Every campaign starts strong.

Well-sequenced campaigns drafted in your organization's context, with one describe-and-review way to build across email and your website.

EXECUTIVE DIRECTOR

More of the right campaigns, no new hires.

The campaigns your team would build if they had the hours. Group them under a goal and see whether it's moving.

It does the work. You approve and launch. Every AI-built campaign arrives as a draft. Nothing sends until you launch it, and draft campaigns can't go out by accident.

PropFuel

LIVE IN PROPFUEL TODAY

THE REST OF MEMBERSHIP AI

It knows who needs a campaign, and why.

The Campaign Builder does the work. The rest of Membership AI reads every member response in context, tells it who to talk to and why, and shows whether your goal is moving. Each part does a job a small membership team rarely has the people for.

KNOW
Signals and segments find who needs attention

→

GROW
Initiatives track the goal; responses teach it more

YOUR NEW DATA ANALYST

Signals

Reads campaign responses and connected AMS data to flag who's at risk, who's disengaging and who's ready for more.

- Showing disengagement before renewal
- Stalls after the first event invite
- Showing renewal intent

Sample

YOUR NEW MEMBERSHIP COORDINATOR

AI Segment Builder

Describe the audience in plain English. It shows its build plan, suggests segments worth creating, and lets you review before anything is final.

YOUR NEW CHIEF OF STAFF

Home page

Today's Briefing: a personalized daily update with one-click next steps that can open the Campaign Builder, next to a 14-day view of upcoming sends.

THE STRUCTURE YOUR STRATEGY RUNS ON

Initiatives

Group campaigns under one goal. See active campaigns, 30-day sends, engagement rate and signals tracked in one place: the story for your board.

YOUR NEW MARKETING COORDINATOR

AI Content Writing

Drafts campaign and landing-page copy inside any campaign, so you never start from a blank page.

YOUR CONTEXT, EVERYWHERE

Org Profile

Your organization, membership structure, goals and tone, pre-filled by AI and edited by you, so every recommendation and draft fits.
